MEMORANDUM FOR: Chairman, Weapon and Space Systems Intelligence Committee
FROM: Director of Central Intelligence
SUBJECT: Critical Intelligence Deficiencies

1. That's a formidable piece of work your Committee did in June on Critical Intelligence Deficiencies. Congratulations!

2. I'm sending out the attached memo to get focus and action on the most significant and doable of the daunting list of tasks your study identifies.

William J. Casey

18 August 1985

MEMORANDUM FOR: Deputy Director of Central Intelligence
Director, Intelligence Community Staff
Deputy Director for Intelligence
Deputy Director for Operations
Deputy Director for Science and Technology

FROM: Director of Central Intelligence

SUBJECT: Critical Intelligence Deficiencies [] Jun 85)

25X1

1. The June 1985 paper turned out by the WSSIC on Critical Intelligence Deficiencies is a formidable piece of work but, I fear, so daunting that it can land with a dull thud and disappear.

2. Certainly without direction and focus on the most urgent of 129 pages of deficiencies and selection of those which are most significant and most readily overcome, the work will wind up having little value.

3. I'd like to activate the most knowledgeable senior people, collectors and analysts, to examine closely the specific deficiencies in the areas where they have knowledge and assets and pick out where we can most profitably concentrate special effort in working and developing existing and potential sources, capabilities, and analytical task forces. I have in mind parceling specific areas out to OWSR branches, their counterparts elsewhere in the Community, and having SIGINT, IMINT, HUMINT operational people review these deficiencies in terms of how their actual and potential assets and capabilities can best be focused on them, etc.

William J. Casey
